

## Ages 3 to 5

- make bubbles and blow them (count how many you see before they pop)
- draw
- finger paint with shaving cream (squeeze shaving cream on a table & let them go for it!)
- watercolor painting
- sculpt with playdough (DIY recipes online!)
- build a fort
- read
- play dress up

## Grades K to 2

- bake together
- make snacks together
- build with Legos
- work on puzzles
- make music (find instruments around the house - the kitchen is a good place)
- play games (e.g., cards, board games)
- learn about a fun topic (animals)
- visit the library

# SUMMER ACTIVITIES FOR KIDS

## Grades 3 to 5

- watch for clouds and draw what you see (use your imagination)
- start a summer book club
- watch a movie and change the ending (talk about it)
- rearrange your furniture (start with graphing paper & see how kids would design the space)
- have a water balloon throwing contest
- water gun fun
- cook together (e.g., dinner)

## Grades 6 to 12

- learn a new craft
- invite friends over
- go for walks or bike rides
- pick a topic and research fun facts about it (e.g., Why do octopuses have blue blood?)
- paint your nails
- throw the ball around
- work out (walk, run, jog, skateboard)
- create a presentation on an interesting career
- host a movie night
- bake cookies for a neighbor
